Design

Custom commercial Christmas programs are our specialty. We staff the best minds in Christmas design and will create a look unique to your property from top to bottom. We offer our design and consultation services gratis!

Our Design Process

HOW WE BRING AN IDEA TO LIFE:

Have you ever admired a holiday display and thought, "How did they come up with that?" We are experts in taking an idea and bringing it to life. Not sure what you need? No problem. Our expert designers can look at a property and see endless focal points that can be transformed during the holidays. Entrances, promenades, upper levels, and courtyards offer ample opportunities to decorate. An interactive experience can offer a sense of community pride and provide guests with holiday/seasonal photo opportunities.

A WALK-THROUGH TREE

PHASE 1: Discover & Define

Our designers met with the management team to discuss a holiday decor program. They desired a "gateway" or entrance into their shopping center that would become a one-of-a-kind destination.

PHASE 2: Concept

Our sales and art team presented three completely different concepts. The response for our custom Walk-Through Tree was overwhelming, so the project went into the Design Phase where our artists created life-like renderings.

PHASE 3: Design & Create

We used our Coastal theme of turquoise and apple green to evoke feelings of winter while presenting modern holiday decor. We paired the colors with iconic snowflakes to embellish the tree. The shopping center was even able to use the inside walls of the tree as a large graphic display, touting community activities and events for the holidays.

PHASE 4: Deliver!

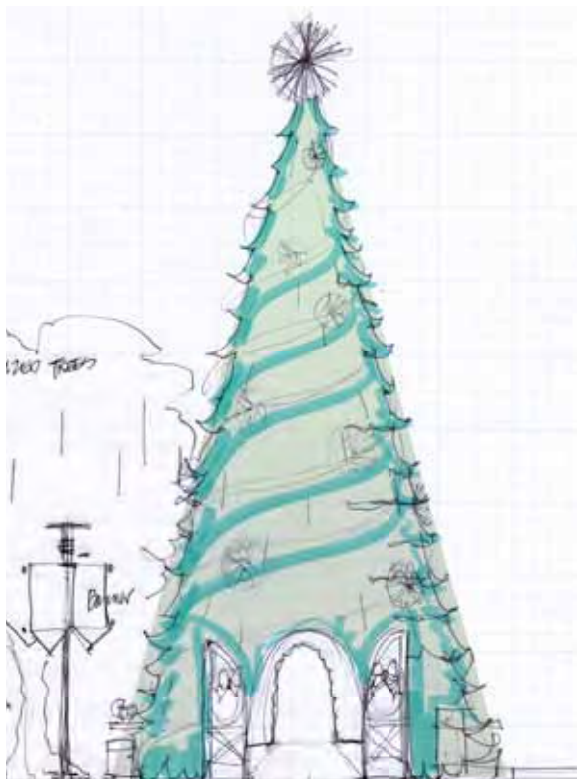

Management and patrons of the shopping center were delighted with the tree and many return each year for their holiday shopping experience.

Please call for more information on our design process or custom decor development.

Welcoming Entrance Ways

Our Walk-Through Trees are designed to guide the guest through an interactive holiday experience.

& Custom Snowfall Topper

Custom

A N I M A T I O N

Animated lights appear to dance and change color in time with the music, creating a must see production that will keep people coming back!

SHOWSTOPPING LIGHT SHOWS

Animated LED RGB Tree

RGB lighting is the latest and greatest thing to hit the holiday lighting industry. To understand what an animated LED RGB tree is we must first understand what the letters RGB stand for i.e. "R" stands for red, the "G" stands for green and the "B" stand for blue. These three colors combined, allow you to create any light color, change colors, and add motion/effects, all with one set of LEDs! Each light color will have hundreds of levels of intensity, and by blending these light colors at different levels of intensities, you can create any color in the rainbow.

Enhance Your Animated LED RGB Tree

Want to stand out this holiday season and get the most out of your animated LED RGB tree? Add audio tracks that coordinate with your animated light show.

Holly Leaf

COLLECTION

Create a contemporary look with our Holly Leaf Collection. Sculpted metal holly leaves with gold details and shiny ornament berries enhance the traditional styled holly. This creates a fresh look from a classic favorite. Red and candy apple green ornaments compliment the designs with coordinated shimmering bows.

Sequoia

C O L L E C T I O N

When the holidays are here, celebrate with a giant Christmas tree! Our Sequoia Collection of trees are the perfect centerpiece for holiday festivities. They are constructed from easy to assemble modular framing. Sequoia trees are available up to 100 feet in height.

- All UL Approved Electrical Components
- "Spring Back" Self-Shaping UV Treated Branches
- 10 Year Warranty
- Available with LED Mini-Lights, LED C7 Lights, or RGB Animated Lighting
- Patent No. 8,272,754

W I R I N G M A D E E A S Y

Each Sequoia frame is marked and designed to be stacked vertically, level by level, and follows a simple letter and numbering system. The power cords run between rows and are easily accessed to power branches and the tree topper.

E A S Y T O I N S T A L L B R A N C H E S

Our Sequoia standard branches easily fit into their custom metal sleeves for secure placement. Hook the first branch into the sleeve closest to the socket of the runline. Work your way down hooking the branches and connecting the power for the light strings together until all branches are installed. Do not connect the lights (end to end) to more than 21 branches.

S E L F - S H A P I N G B R A N C H E S

Patented, self-shaping branches are shaped before packing and "spring back" into form right out of the box! The result is a great looking tree that takes less time to set up and assemble.

Snowfall Topper

SEQUOIA TREES

The Sequoia Tree Collection represents the next generation in giant Christmas Tree construction. This is the first tower tree to receive the RSE (Registered Structural Engineer) stamp of approval, making it the safest tree on the market. The Sequoia Tree features self-shaping branches that "spring back" to their original shape reducing assembly time and ensuring your tree looks fantastic each year!

All Sequoias have two-tone UV treated foliage with premium tips that are double the industry standard. This tree comes pre-lit with warm white LED mini lights or LED C7 bulbs, providing an energy savings of up to 90% over traditional incandescent bulbs.

Animated DISPLAYS

ANIMATED BAND OF ELVES

The entire set includes: five Animated Nordic Elves (two sitting, two standing and one standing on one leg), two Fiber Optic Trees, one Large Gift Box, one Giant Illuminated Ornament, snow blanket and scatter flake.

DLCGNRDCELVESSET

SANTA'S WORKSHOP

The Elf Workshop is an interactive display and is animated with viewer activated motion! The faster the cranks are turned, the faster the elves work. With the interactive controller and built in sound system, children will be mesmerized by this holiday experience.

The entire set includes: four Elves, a sleeping Santa, a conveyer belt, a custom built 19' Christmas tree with warm white LED lighting, a full size sleigh, surrounding snow, and lit garland. Add a Santa Chair to the front and your holiday set is complete!

19' height x 16' overall length x 8' width
DLCGELF4ST1MUSIC

POLAR BEARS

The interactive Polar Bear Jamboree is sound controlled and moves synchronized to the pre-recorded music. The set includes four Polar Bears, a piano, individual instruments, outfits, & props.

7' height x 13.5' overall length x 6.7' width

Image Projection SYSTEM (IPS)

The Image Projection System illuminates large surfaces and brings them to life. Stainless steel gobo designs and custom glass slides will give your property a unique style. The rotating image of snowflakes projected on a flat wall or irregular architecture is an eye-stopper.

Alternate light pole mount
can be substituted for a self-
supporting pole & base

A. OUTDOOR IPS (BLACK)

Includes:

- Average area of projected image is 30'x30'
- 28" diameter base, 50 lbs
- 6' support pole
- Rotator unit, rain shield, attachment clamp
- Two stainless steel snowflake gobo disks
- (1) 575 watt, 120 volt bulb, 185 lbs
- 3' lead cord
- Storage crate

IPSSYSTEMX

B. INDOOR IPS (WHITE)

(150 watts, 12000 hour lamp life)

Comparable brightness and 'light throw' to outdoor version
with less heat making it suitable for indoor use

FEATURES

- 12 C9 bulbs (RGB LEDs) on green wire
- Low voltage power supply and controller included
- Controller with 24" lead
- 12' total length
- 12" bulb spacing, 6" tail
- End-to-end connection (up to 500 lights)
- 120V standard plug; CSA-US certified
- Indoor/Outdoor
- Comes with set of attachment clips

Download the free Lumenplay™ app and put millions of colors in the palm of your hand. Using a simple, sleek app interface, Lumenplay™ is the latest in interactive Smart Phone and Smart Pad/Tablet controlled light set. The commercial grade RGB LED light stings are designed for heavy duty use and can be used indoors and outdoors in trees and shrubs, to outline roofs or to wrap around columns.

Each Lumenplay™ strand is available in 12' lengths with twelve bulbs on green wire. These light strands offer a kaleidoscope of colors and effects. The end-to-end connections enable the strands to be customized to the perfect length.

LED Mini Lights

LED mini lights are available in a variety of bright colors and use nearly 90% less electricity than incandescent. State of the art design includes wide angle lenses that disperse light better than ever before. Switch over to LED Mini Lights this season.

- LED light life 50,000 to 100,000 hours
- Wide angle LED lens spreads light for 360° view
- 6 inch LED spacing for commercial decorating
- UL Listed, end-to-end
- UV resistant
- Water-tight, permanently sealed LEDs
- 3 season warranty

Warm White LED C9 Bulbs

LED

C7 & C9

LIGHTS

Our LED C7 and C9 Lights are much brighter and bolder with the most consistent color spectrum in the industry! Create a nostalgic look with C7 and C9 lighting, commonly used for perimeter lighting, trees and rooftop displays! All bulbs are fully dimmable for animation.

With a built-in patented rectifier, unwanted flickering is eliminated and the truest color possible delivered. Energy efficient, long-lasting and virtually maintenance free. These bulbs make it easier than ever to light up buildings, trees and displays. Our Warm White LEDs rival the look of clear incandescent lighting.

DURAHTSHRINK3/4

R. 1" Heat Shrink (for Power Cord)

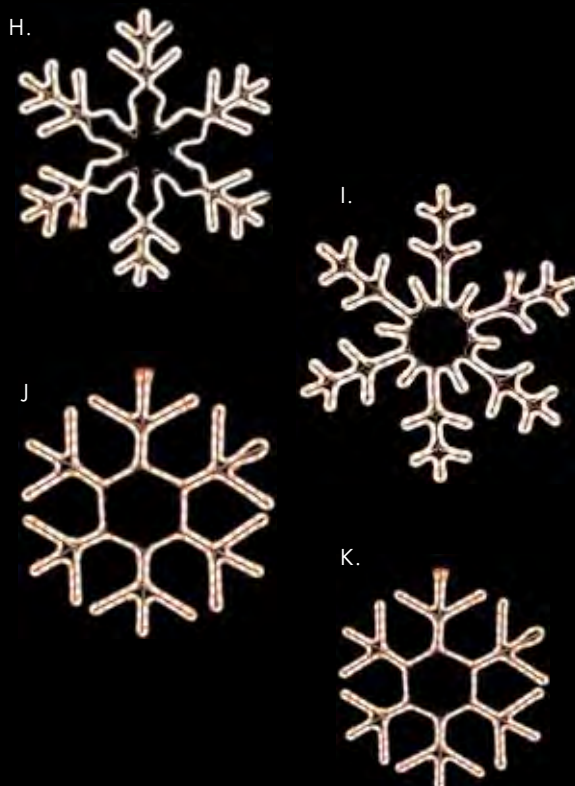

DURAHTSHRINK1

- Rolls in 150' lengths
- Can be cut every 39.2" notated on the ropelight
- Up to 50,000 hour bulb life; if one LED fails, the others remain lit
- Connect up to 300 feet on one power cord
- Uses approximately 0.8 watts per foot
- Each roll includes 3 sets of 6' power cords, power cord connectors and end caps

Our LED Ropelight is made with more resistors per circuit in order to achieve the best performance and reliability possible. In addition, our LEDs are designed with lenses that diffuse the light up to 120 degrees. Most LEDs only offer a 30-degree diffusion. The increased diffusion of our LEDs spreads the light across a wider angle, which makes them brighter and more visible from all angles.

COMMUNITY SPONSORED ORNAMENTATION

Custom printed tags and ornaments can be designed with your logo or with names of sponsors from your community. Inexpensive and colorful, these graphic ornaments can stretch a decoration budget and personalize your tree year after year.

Warranty

INFORMATION

WARRANTY

We warranty to the original buyer that all of our displays and accessories will be free from manufacturer's defects. Under normal conditions of use and service, this protection is extended for six (6) seasons on all steel frames, five (5) seasons on garland, three (3) seasons on electrical wiring, and one (1) season on all computerized lighting modules. This warranty does not apply to light bulbs or light strands. Pole Mount displays are designed to withstand up to 40 mph winds with no ice load. Obligation under this warranty is limited to repairing or replacing any part that is found to be defective.

LED Light strands have a warranty for three (3) 60 day seasons or 25,000 hours, whichever comes first. Simply ship the product to us and we will replace the LED Light strand free of charge.

Frame Trees are covered by a ten (10) year warranty against defect under normal conditions and use.

All items not specifically listed are covered by a one (1) season (60 day) warranty.

Under this warranty, the company's obligation to repair or replace is on a non pro-rated basis.

Labor to install and the cost of shipping are not included in this warranty and are expressly in lieu of all other warranties expressed or implied. Bulb burnouts or electrical damage caused by the buyer or weather elements, or damage caused by rough handling in transit are not covered by this warranty. Therefore, units should be inspected and tested for bulb outage upon delivery and prior to installation. All merchandise is carefully inspected before packing and is packed in an approved manner in approved cartons when it leaves the warehouse.

For the purposes of this warranty 1 season is defined as one installation and removal for a duration lasting no more than 60 days.

RETURN POLICY

Merchandise returns will not be accepted without written authorization. Return requests will be accepted for credit if submitted and approved within 30 days of receipt of product. Any returned products under the following conditions will result in a 20% restocking fee and the customer will incur the freight charges: customer ordered incorrect product and/or never opened or used product for its intended purpose.

ACCEPTANCE OF MERCHANDISE

All claims of merchandise delayed, lost, or damaged in transit are the responsibility of the consignee/customer. When accepting shipment, claims of any missing cartons or visible damage must be noted on delivery driver's bill of lading or the receipt of delivery. All claims must be filed with the delivering carrier. Failure to properly file claims may result in refusal of the claim by the carrier.
