72' Sequoia Tree with
Custom Snowfall Topper

sequoia tree collection

The Sequoia Tree Collection represents the next generation in giant Christmas Tree construction. This is the first tower tree to receive the RSE (Registered Structural Engineer) stamp of approval, making it the safest tree on the market. The Sequoia Tree features self-shaping branches that "spring back" to their original shape, reducing assembly time and ensuring your tree looks fantastic each year!

All Sequoias have two-tone UV treated foliage with premium tips that are double the industry standard. This tree comes pre-lit with warm white LED mini lights, providing energy savings of up to 90% over traditional incandescent bulbs.

Each Sequoia frame is marked and designed to be stacked vertically, level by level, and follows a simple letter and numbering system. The power cords run between rows and are easily accessed to power branches and the tree topper.

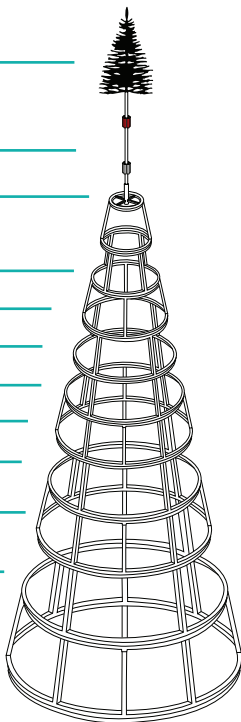

Our Sequoia standard branches easily fit into their custom metal sleeves for secure placement. Hook the first branch into the sleeve closest to the socket of the runline. Work your way down hooking the branches and connecting the power for the light strings together until all branches are installed.

Patented, self-shaping branches are shaped before packing and "spring back" into form right out of the box! The result is a great looking tree that takes less time to set up and assemble.

- All UL Approved Electrical Components
- "Spring Back" Self-Shaping UV Treated Branches
- 10-Year Warranty on Metal Frame
- Available with LED Mini-Lights, LED C7 Lights, or RGB Lighting
- Patent No. 8,272,754

Sizing for Sequoia 30' Tree Frame

78' RGB Premium Tree with
Custom Snowfall Topper

RGB lighting collection

Bring animated magic this holiday season by adding an RGB Sequoia Tree. In these spellbinding light shows, animated lights appear to dance and change color in time with the music, creating a must-see production that keeps people coming back!

Our RGB Trees offer a variety of color changing lights, and the ability to add motion and effects, all with one set of LEDs! Each light color has hundreds of levels of intensity, and by blending these light colors at different levels of intensities, you can create any color in the rainbow.

We pre-program, design, and develop every RGB Tree to ensure a seamless program experience. The new program enhancements also include instructional manuals and phone support with an RGB Specialist.

DESIGN YOUR OWN HOLIDAY PRODUCTION!

CHOOSE YOUR TREE HEIGHT:

14' - 30' RGB Tree

- Up to four (4) song choices in sound system with pre-programmed light sequences
- Custom scheduling available

36' and above RGB Premium Tree

- Up to five (5) song choices in sound system with pre-programmed light sequences
- Custom scheduling available
- Onsite programming finalization required
- Additional program customizations available

CHOOSE YOUR ORNAMENTATION:

Add a Special Topper

Create a custom tree topper that accents a one-of-a-kind tree.

Set a Theme

Choose from our vast selection of ornaments and unique or classic accessories to set a memorable holiday theme.

neon flexible lighting

Engineered to last with clean lines and a vivid bright light, Neon Flexible Lighting allows designers to create original shapes and motifs for both indoor and outdoor applications without hotspots. The neon flexible lighting has high brightness, is protected against UV rays, and is enclosed in special flexible PVC housing, which allows the product to be bent in different winding shapes.

- 120 LEDs/m, 7.2 watts/m
- Beam 120
- Can be cut to size on site
- Pre-finished front connector & end cap
- Spools have attached power connector and end cap on dead end

Neon Flexible Lighting

Kit comes with the following accessories:

Custom Bow
with LED Ropelight Lighting

Custom Bow
with LED Ropelight

LED Ropelight Accessories

Our LED Ropelight is made with more resistors per circuit in order to achieve the best performance and reliability possible. In addition, our LEDs are designed with lenses that diffuse the light up to 120 degrees. Most LEDs only offer a 30-degree diffusion. The increased diffusion of our LEDs spread the light across a wider angle, which makes them brighter and more visible from all angles.

A. Ropelight Channel

- 39"/1 meter
- Mounting channel for 13mm ropelight
- Attach channel to flat surface using screws or adhesive (not included)
- Each piece can be cut-to-fit
- Holds ropelight perfectly straight
- UV resistant for indoor and outdoor use

warranty information

WARRANTY

We warranty to the original buyer that all of our displays and accessories will be free from manufacturer's defects. Under normal conditions of use and service, this protection is extended for six (6) seasons on all steel frames, five (5) seasons on garland, three (3) seasons on electrical wiring, and one (1) season on all computerized lighting modules. This warranty does not apply to light bulbs or light strands installed on decor elements. Pole Mount displays are designed to withstand up to 40 mph winds with no ice load. Obligation under this warranty is limited to repairing or replacing any part that is found to be defective.

LED light strands have a warranty for three (3) 60 day seasons or 25,000 hours, whichever comes first. Simply ship the product to us and we will replace the LED light strand free of charge.

Frame Trees are covered by a ten (10) year warranty against defect under normal conditions and use, excluding lights and ornamentation.

All items not specifically listed are covered by a one (1) season (60 day) warranty.

Under this warranty, the company's obligation to repair or replace is on a non pro-rated basis.

Labor to install and the cost of shipping are not included in this warranty and are expressly in lieu of all other warranties expressed or implied. Bulb burnouts or electrical damage caused by the buyer or weather elements, or damage caused by rough handling in transit are not covered by this warranty. Therefore, units should be inspected and tested for bulb outage upon delivery and prior to installation. All merchandise is carefully inspected before packing and is packed in an approved manner in approved cartons when it leaves the warehouse.

For the purposes of this warranty one (1) season is defined as one installation and removal for a duration lasting no more than 60 days.

RETURN POLICY

Merchandise returns will not be accepted without written authorization. Return requests will be accepted for credit if submitted and approved within 30 days of receipt of product. Any returned products under the following conditions will result in a 20% restocking fee and customer will incur the freight charges: customer ordered incorrect product and/or never opened or used product for its intended purpose.

ACCEPTANCE OF MERCHANDISE

Consignee/customer is responsible to notify Dekra-Lite of all impending claim(s) of merchandise delayed, lost, or damaged in transit. When accepting shipment, consignee/customer must inspect all merchandise completely and any claims of any missing cartons or visible damage must be noted on delivery driver's bill of lading or the receipt of delivery. All claims must be filed with Dekra-Lite within 48 hours of delivery or in the case of concealed damage, within 48 hours of identifying the concealed damages. Customer/consignee is to provide required information and evidence of damage or loss according Dekra-lite claims procedure. This may include preservation of evidence of damage/loss for future inspection. Failure to follow Dekra-Lite claims procedure may result in claim denial by the carrier.
